

DOHS-2019

DENTISTRY AND ORAL HEALTH SUMMIT

27-28, May 2019
Rome, Italy

Invitation:

Sciinov welcomes you to attend the “**Dentistry and Oral Health Summit**” during **27-28, May 2019** at **Rome, Italy**.

Sciinov cordially invites all the participants who are interested in sharing their knowledge and research in the arena of Dentistry. **DOHS-2019** includes prompt keynote presentations, Oral talks, Poster presentations, Workshops, Symposiums and Exhibitions.

DOHS-2019 provides a worldwide platform and recognition to an analyst who enlightens the advanced and unique methods in Dentistry. DOHS-2019 will provide a dedicated platform to peer researchers, young inspired scientists, academicians, and industrialists to meet, discuss and share the knowledge that's still more to be revealed in the field of dentistry and oral health. The series of talks, poster presentations, workshops, discussions and networking events will keep participants engaged in learning and making new connections at this Dental conference.

DOHS-2019 also invites Young investigators at every career stage to submit abstracts reporting their latest scientific findings in oral and poster sessions. Intending participants can confirm their participation by registering for the conference along with their colleagues and can avail discounts on their registration.

The main theme of the conference is: “***Excelling in Trends and Era of Science in Dental Education***”

We have the pleasure to welcome you for the participation to our exciting conference. Let us meet in one of the most glorious cities in the world.

Sincerely,
Operating Committee
DOHS-2019

MARKET ANALYSIS REPORT:

The Dental market is one of the fastest growing markets around the globe. It includes treatment, prevention and diagnosis of the diseases related to the oral cavity. The

dental services include oral surgery, dentures, laser dentistry, cosmetic dentistry, root canal, dental implants and smile make over. The global dental market in the year of 2013 and 2014 was \$46.4 billion and \$47.7 billion respectively. And it may grow at a rate of \$55 billion in 2019, with a compound annual growth rate 2.9.

Globally, 60-90% of school children and nearly 100% of adults have dental cavities. DOHS-2019 aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of innovative dental treatments. It also provides the chance for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Dental & Oral Health.

WHY TO ATTEND?

With members from around the world focused on learning about Dentistry; this is your best opportunity to reach the largest assemblage of participants from the dental community. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new developments, and receive name recognition at this 2-day event. World-renowned speakers, the most recent techniques, developments, and the newest updates in dentalcare are hallmarks of this conference.

SCOPE OF DOHS-2019 CONFERENCE:

DOHS-2019 provides a great platform by gathering eminent Dentists, Dental Hygienists, Dental Practitioners, Dental Surgeons, Dental Specialists, Professors, Researchers, Dental Assistants, Dental Business Assistants, Students from Academia and other members of Dental Teams to exchange new ideas.

EXPLORE ROME:

Rome the “Eternal” City is so called because it is a place of great beauty, contrast and life. Rome is an eclectic city: the religious world centre of Catholic Church, the fabulous ruins of the centre of the Roman Empire, and modern, bustling Rome. All three seem incongruous, yet they live inside and beside each other with great ease. You will soon realise Rome was built to rule and dominate the world. Everything is on a massive scale, solid and “eternal”.

Roman medicine was highly influenced by the Greek medical tradition. The incorporation of Greek medicine into Roman society allowed Rome to transform into a monumental city Like Greek physicians, Roman physicians relied on naturalistic observations rather than on spiritual rituals.
